I used the 24/7 virtual urgent care when I had worsening flu-like symptoms. It was a Saturday night, but I was able to get a virtual call and prescription filled within the hour. I picked it up from a 24/7 pharmacy, and by Sunday morning, I was already starting to feel better.

Financial Health Center

Schedule a free personalized consult or access tools and resources!

Save for a financially secure retirement by participating in a retirement savings plan and let BSW help with dollar-for-dollar matching contributions up to 5% of eligible pay, up to the IRS compensation limit.

Saving is as easy as 1-2-3

1. Register your account with Empower at **BSWHRetirement.com**.
2. Choose a percentage of your salary to save. Are you age 50 or older? Don't forget your catch-up election*.
3. We subtract the amount each pay period and deposit the funds into your retirement savings account along with the employer match.

** Catch-up contribution is a separate election that will start once you have met the standard contribution limit for the year.*

Note: Selecting beneficiaries for retirement benefits is different than choosing beneficiaries for other plans, such as life insurance. Be sure to update your beneficiary designations when you enroll in a retirement savings plan* or if you have a life event (marriage, divorce, etc.).

**If you have multiple accounts, each account will need to be reviewed/updated.*

If you participated in another company's retirement account during the year:

- ▶ Consider rolling over your other retirement savings account balance(s). Check with Empower to explore your options.
- ▶ Take your other retirement savings into account when electing your contribution percentage. It's up to you to ensure you don't exceed the IRS limits.

Annual IRS limits

The standard contribution limit for 2026 is \$24,500. A separate catch-up contribution up to \$8,000 is available if you turn age 50 or older during the year. Those ages 60-63 have an increased limit of \$11,250.

457(b) plan

Executives and physicians may also be eligible to contribute into a 457(b) plan. This plan is not eligible for catch-up contributions or employer match.

As your savings grow, you have options on how you can invest your money.

Target date funds

Set it and forget it with a diversified portfolio based on when you plan to retire (typically age 65). With this option, your investment mix gradually shifts from more aggressive to more conservative as you approach retirement.

Individual funds

Create your own portfolio to match your risk tolerance and investment goals. This option lets you choose your investment lineup from a wide variety of core funds. Be sure to check out the free online investment advice provided by My Total Retirement powered by Morningstar.

Managed account program

Let someone help and manage your individualized portfolio. With this option, you provide My Total Retirement powered by Morningstar with your personal information. They then create and manage it on an ongoing basis for a fee.

Self-directed brokerage accounts

Are you an investment pro? Brokerage accounts are intended for knowledgeable investors. For an annual fee, you can select numerous investment options (beyond those offered under the plan).
