Palliative care	Ambulatory clinic	Allergy/Immunology	Anesthesia	ER/Urgent care	ENT	Sports med/Ortho

** means allowed to take vacation

Electives (Individualized learning): Total 6 months spread throughout residency, where they can be picked by resident based on relevant plan for future practice or to further skill in foundational areas. These will be decided by resident at semi-annual eval with Program Director. At least 2 months of the electives will be on outpatient settings one in PGY2 and one in PGY3.

**Vacation Guidelines: Ideally, vacation should be submitted/taken in three (3), one (1) week blocks; a maximum of one (1) week of vacation can be taken during any sub specialty rotation, vacation is not permitted during the following months: Internal Medicine (inpatient wards, MAR, night float), ICU, vacation is not permitted during the last week in June due to new resident orientation, vacation is not permitted during the last week in December or the first week in January (or at least not between December 25 and January 1)
