

The Baylor Scott & White Blood Center would like to recognize the following individuals for going above and beyond in blood product donation in 2019 – the dedication to helping patients in need, and the time commitment involved, does not go unnoticed or unappreciated! The donors listed below gave a total of:

679 units of apheresis platelets

189 units of apheresis plasma

1,426 units of red cells

This means as many as 2,294 patients had their lives changed by these donors – and it cannot be measured how many family members and friends of those patients also had their lives impacted.

To these donors, thank you for everything you do, and for giving so freely of yourself to help someone in need. Note, those donors annotated with an (*) gave maximum levels in 2019, and are also recognized on commemorative plaques at the Baylor Scott & White Blood Center fixed site location in Temple.
