Declining to Share Personal Health Information

Use this form if you do **NOT** want Medicare to share information with the Baylor Scott & White Quality Alliance about care you have received from doctors or other healthcare providers, for use in coordinating and improving the quality of your care. Your decision not to allow Medicare to share your personal health information with the Baylor Scott & White Quality Alliance means Medicare won't share information with any ACOs in which any of your doctors or other healthcare providers participate. Completing this form also overrides any previous decision you may have made about sharing your personal health information with another ACO.

You can also call 1-800 MEDICARE (1-800-633-4227) instead of completing this form. TTY users should call 1-877-486-2048.

Your decision not to share your personal health information with the Baylor Scott & White Quality Alliance and any other ACOs in which any of your doctors or other healthcare providers participate will remain in effect unless you communicate a changed preference to us, another ACO, or to Medicare directly through 1-800-Medicare. You may change your decision not to share your personal information at any time. Your request will take effect in approximately 60 days.

Please note that other ACOs in which any of your doctors or other healthcare providers participate may also contact you to ask your preferences about sharing your information with ACOs. If you are satisfied with your most recent response to such an inquiry, you do not need to do anything. If you wish to change your preference, please contact us to request a copy of the Consent to Change Personal Health Information Preference form or call 1-800-MEDICARE and say that you want to change your preference about sharing your personal health information with ACOs or that you want to talk about ACOs. If you are unsure of whether your personal health information is currently being shared with any ACOs for purposes of coordinating and improving the quality of your care, you may ask for that information through 1-800-MEDICARE.

Note: Even if you don't want to share your personal information for coordinating and improving the quality of your care with the Baylor Scott & White Quality Alliance or with any other ACOs in which any of your doctors or other healthcare providers participate, Medicare will still use your information for some purposes, including certain financial calculations and measuring the quality of care provided by the Baylor Scott & White Quality Alliance and/or those other ACOs. Also, Medicare may share some of your personal health information with those ACOs as part of measuring the quality of care given by the healthcare providers in those ACOs.
