Colonoscopy

Basic Facts and How to Prepare SuPrep Bowel Prep

Screening Saves Lives
Colorectal Cancer is the second leading cancer killer in the United States.
If you are 50 or older or have a family history of cancer, getting a colorectal screening can save your life. Here is how...

- Colorectal Cancer often starts from a non-cancerous growth called a polyp that is in the rectum or colon.
- A colonoscopy can find polyps so that they can be removed before they turn into cancer.
- A colonoscopy can also find colorectal cancer early when the chances of being cured is good.

Preparing for Your Exam
The colon must be cleared of all solid mater so that the doctor can see clearly.
If your colon is not clean your exam may be cancelled.
You should be given a prescription for Bowel Prep medication along with these instructions.
